

- Providing video screening on web site for each presentation, offload video screening & bring in class.
- Virtual book, nice index, for reference.
- All papers on web most of electronic transaction require some effort. Put all together & bring in book, that publishers might not be interested in.
- What is the purpose?  
To disseminate information in respective school medium is web. There is no revenue intention. Video streaming for presentation. Put abstract in Spanish & English. People can ask for full version & cost will be to them to translate.
- To make book is good idea but problem is time.
- Another way to cut time & cost is abstract information. Only put abstract after initial introduction & put the essence of all papers & further contact speakers give name & information.
- Give link for each page.
- If papers already electronically then put abstract in English & Spanish & put the link to each page.
- Abstract in both language & paper in all their own language.
- The goal of project is to put in electronic way & let people see page.
- This is a way to distract commercial business.
- If technical & financial feasibility report is given then we have hard copy of tape & give it to all schools & say everything we have is on the web.
- Introduce tape to each university & do it promotionally so have good success.
- Catholic Press Group.
- If speaker is willing then encourage question & answer in June 2001 conference.
- Start program at 16.00 on Mon. 6/25.
- Liked idea of best practice in curriculum. Considering adding something somebody talk about “Human condition & best practices”.
- Somebody do leading with series of questions & go with SAP & NAFTA & 6 bullet points with Jesuit speeches.
- Go with management & technology on Tue. In 2<sup>nd</sup> session on curriculum & research on Mon.
- Not just courses but programs.
- In Latin America what you are doing with small & medium industry can be brought up.
- Discuss Manufacturing & technology on Tue. If get upto 9 presenters can do 3 concurrence at least 2 presentation in each concurrence.
- “Impact of total quality management, how that affect values of work” Good presentation topic.
- Embed quality management with current practice. Invite people from Japan for this.
- Have speaker who represents a company, which got squeezed out, & how they handled it? (can refer to this when talk about human condition)
- Bring somebody from India, How replicable to other country situation.
- In Latin America (especially Columbia) there is boom for E-commerce.
- Relationship between technology & logistics.
