

CALL FOR PAPERS

We invite you to submit articles to the **Journal of Management for Global Sustainability (JMGS)**, a peer-reviewed scholarly journal devoted exclusively to the publication of original research in the field of management and global sustainability.

Global sustainability is the broad set of interconnected issues that encompass, but are not limited to, achieving environmental preservation, social entrepreneurship, poverty eradication, social justice, desirable production and consumption patterns, species preservation, and spiritually rich lives at this time in our species' history on this planet. The journal publishes articles on how productive enterprises contribute to realizing and achieving global sustainability to create socially just and spiritually-whole ways for all species to thrive forever.

The journal welcomes submissions from all management disciplines (e.g. international business, accounting, marketing, finance, operations) and from related disciplines (e.g. economics, political science), especially manuscripts that show how we can “contribute more effectively in moving toward a more sustainable world (Stoner, 2013^{*})

These articles shall be subject to a double-blind review process overseen by an international editorial board. Submissions of theoretical work, empirical studies, book reviews, pedagogical tools and practitioner manuscripts are all encouraged.

JMGS is on ignited.global:
