

Review of ***Business***

Interdisciplinary Journal on Risk and Society

Best Paper Honorariums

The *Review of Business: Interdisciplinary Journal on Risk and Society*, beginning with its 2019 issues, invites original work that engages with the **role and impact of risk and/or uncertainty on business decision-making and/or on society**. The journal's scope reflects the diverse ways we engage with risk and uncertainty across the global community of scholars. It is open to all conceptual and empirical research, methods, and writing styles. It requires, however, a logical and clearly demonstrated connection between evidence and inferences.

The Editorial Board will recognize the best scholarship with two annual "Best Published Paper" awards. Each award is accompanied by an honorarium of \$2,500.

The journal (ISSN 0034-6454) is not a profit-making endeavor, it has no submission or publication fees, it is indexed on ProQuest, EBSCO, Cabells Whitelist and Web of Science among others. It is available on-line as well as in print. The Peter J. Tobin College of Business at St. John's University in New York publishes this journal each January and June.
